

GET THE MOST OUT OF AUTODESK AUTOCAD WITH NVIDIA

DO YOUR BEST WORK FASTER

The latest NVIDIA® Quadro® graphics cards—based on the NVIDIA Kepler™ architecture—provide exceptional performance for AutoCAD. So you can work more quickly, explore your ideas, and still get your projects done faster.

NVIDIA professional graphics provide leading performance that also lets you easily use the other applications in the AutoCAD Design Suite—such as 3DS MAX—with complete confidence. This is something integrated graphics just can't handle.

Create Fast Photorealistic Renders.

3DS MAX in your design suite makes creating stunning photorealistic renderings for client reviews or marketing materials faster and easier. Plus, it takes full advantage of your graphics card, so your renders will finish faster. Why wait overnight and catch mistakes too late?

Now, you can render up to 14x faster in 3DS MAX using NVIDIA Multi-GPU technology while still working in all your other apps. This enables you to reduce, or in some cases eliminate, the number of expensive and time-consuming physical prototypes needed.

Recommended graphics solutions.

	QUADRO K4200 or K4000	QUADRO K2200 or K2000	QUADRO K620 or K600
APPLICATION	Occasional use of 3ds Max with AutoCAD	AutoCAD use only	AutoCAD use only
USAGE	<ul style="list-style-type: none"> > Excellent 3ds Max performance > Largest assemblies and complex surface models. > Best choice for complex geometry, transparency, and hidden line removal 	<ul style="list-style-type: none"> > Medium assemblies and complex surface models > 2D drawings with excellent response time to pan, zoom, and redraw. 	<ul style="list-style-type: none"> > Small assemblies with simple parts
GPU MEMORY	4 GB K4200, 3 GB K4000	4 GB K2200, 2 GB K2000	2 GB K620, 1 GB K600

 **AUTODESK.** NVIDIA professional graphics solutions are certified and recommended by Autodesk. Close collaboration during product development guarantees stability and reliability of the platform just the way you expect from day one.

PNY Advantage

PNY provides unsurpassed service and commitment to its wide variety of graphics customers. In addition, PNY delivers a complete solution including the appropriate adapters, cables, brackets, software installation disc, and documentation to ensure a quick and successful install.

- 3-Year Warranty
- Support for NVIDIA graphics solutions in all system brands
- Pre-and post-sales assistance
- Toll-free professional technical support
- Dedicated Field Application Engineers
