PRODUCTIVITY	Model Interactivity for professional application use	Fully interactive experience with professional applications.	Unmatched gaming performance.
	Tested, certified, and tuned for pro apps	Recommended and certified on 150+ pro apps.	Tested and tuned for leading game titles.
	Productivity features for pro apps	SOLIDWORKS RealView mode and CATIA LIVE, full GPU support across all key Adobe CC applications, Autodesk Design and M&E suites, and many others.	GeForce Experience and other features enrich gaming experience and improve performance.
	Desktop management tools	NVIDIA nView™ pro desktop management tool.	Available tools are optimized for gaming.
FEATURES	Multi Display	NVIDIA Mosaic™ spans any application across up to 16 multiple ultra-high-resolution panels or projectors with advanced functions like bezel correction, overlap, warp, and blend capabilities¹.	NVIDIA Surround and G-Sync for multi-display gaming configurations.
	Stereoscopic Display	Wide range of professional and consumer applications support Stereoscopic 3D display on HDMI 3D TVs, projectors, and displays with a rich set of stereo glasses including NVIDIA 3D Vision™ and 3D Vision Pro.	Games and consumer applications display in Stereo 3D on 3D Vision hardware or HDMI 3D TV's.
	Video I/O	Quadro Digital Video Pipeline and GPUDirect for Video directly streams video in and out of the Quadro GPU.	Video I/O flows through system memory adding latency and non-determinism.
RELIABILITY	Extended availability	3-year lifecycle for enterprise deployment needs.	Lifecycle appropriate for consumer market.
	Global support & extended warranty	Knowledgeable pro support team and 3 year warranty.	Support and warranty policies are end consumer oriented.
	Quality and stability	<b>DESIGNED, BUILT, AND TESTED BY NVIDIA.</b>	Designs are conceived, modified, and built with gaming performance in mind.
